

Wheeler Collection's LEGENDS & Treasures

The interactive trading card product with **gold** in every box!

Products shown as renderings.

What is Wheeler Collection's Legends & Treasures?

One of the few products with real value in each and every pack, **Wheeler Collection's Legends and Treasures is a unique trading card experience, one with something for everyone!**

Collectors will love completing their sets, not only for the thrill of the hunt but because each original card set from Wheeler Collection has real value. Collectors will prize their *Lady Fortuna* card set not just for the gorgeous card art, but also because the gold bars contained within each are 1 gram of gold!

Everyone will love their custom case toppers with embedded gold rounds, only available to people with a serious eye for value. When they rip packs they'll have real value and a chance to assemble ultra-rare sets valuable to both collectors and other players.

Gamesmen will love combining elements of collecting and selling, retaining cards until they reach maximum value. These are the individuals that make up WheelerCollection.com, using the Stake a Claim portal to announce the latest *Art Redemption* card they've uncovered for their collection... unless they get an offer they can't refuse!

Real Value

Each pack of Wheeler Collection's Legends and Treasures features coins, gold bars, rare patches, historical reissues and much more. This ensures each pack comes full of real value.

Unique Products

Traditional trading cards are often aimed at one group: sports fans. At Wheeler Collection we love sports, but know that we can also provide amazing cards for fans of art, pop culture, history and more!

ONE-OFF ART FROM THE HOBBY'S STARS!

Collectors will love the chance to win one-off artwork by Jared Kelley, Gary Kezele, Grant Kratzer and other artists redefining trading card art.

A unique feature to Wheeler Collection is our Stake a Claim portal; where players enter the unique codes they find under each Art Redemption card's scratch off area. These codes unlock the corresponding square on the global game grid. Linking ownership to the players account, generating special forum avatars and declaring themselves open for trade offers!

Trade-In

Not satisfied with the specific rare coins & collectibles you pulled? Visit WheelerCollection.com to trade with fellow players or redeem directly with Wheeler Collection for Crown Coins, good towards rare, web-only exclusives!
